President Hon, CHARLES A. TOWNE Of New York City and Beaumont, Tex.

"THE PROSPECTIVE FUTURE OF TEXAS."

"The stories of the potential and in some cases actual riches of some of the Texas oll magnates are not overdrawn, consider-ing the productiveness of their wells. At the present price the medium calculation of the pply promises an annual return to Texas over a hundred million dollars. Inas-ich as they will manufacture little of it, at least according to their present plans, that revenue will be almost all profit. No American, accustomed as he is to bonanzan, ought to disbelieve in the fruition of such hopes and chances as are thus pictured, or fall to understand what the results will be for Texas. In a few short years it may be-some the wealthlest State in the Union and may furnish the riches of the country's wealthlest men of the not distant future."— Providence Journal, Aug. 21, 1901.

mtary expression of opinion; as such it is

Doctor Paul Dvorkovitz, a native of Russia, but now manager of the Petroleum Institute of London, and director in some of the largest Russian, Roumanian and English oil companies, was in Beaumont the last week in August. He came direct from London to Beaumont, and returned August 3 direct to London, the sale object of his visit being to investigate the Texas field. Doctor Dvorkovitz says: "Thore has never been enough oil produced to supply the demand of the world". The Texas field he activation of the world." The Texas field, he estimates, "will produce as much oil as the world has formerly produced all told"; and he says, "the world will use all the fuel oil from the Beaumont field in time, but the people must not become impatient; it takes time, and lots of time.

ket."

J. A. Chanlor, who came over with Professor Boverton Redwood and Mr. Fitzhugh to examine the Texas field for some English and Belgian capitalists, says: "I have been in all the oil fields in the world, and have seen none that can compare with this one. There is one little spot in Texas that I positively assert can supply the whole world with oil for a century to come. As a fuel it cannot be besten in the world, and I do not think can be equaled. The Haku oil is a good fuel product, but cannot compete with Texas oil."

AUTHORITIES, both scientific and practical, seem to be pretty thoroughly agreed that Texas has the supply and will have the demand. We have always believed this since the head of our firm visited the field, but, as Doctor Dvorkovitz says, "It takes time" to prove it. Rome was not, and the oil trade of Texas will not be, "built in a day"—but it will be built. In that building the Export Oil and Pipe Line Co. will be no insignificant factor. It is doing business, pushing business, and will continue so to do. We look for handsome returns to be earned and distributed by the first quarter of the incoming year.

We believe this the best investment before the public to-day.

MARKET SUSTAINED BY ARTIFICIAL METHODS.

SYNDICATE PREVENTS ANY

BIG FLUCTUATIONS.

Bankers Buoy Up Wall Street Stocks in Order to Prevent General Speculative Disturbance.

New York, Sept. 10.-There was some unasiness reflected in the stock market today over the money outlook, but it was resisted with a degree of success, and was offset by other factors, the most notable and effective of which was the gratifying news of the continued improvement of President McKinley at Buffalo. The market was artificial to a degree, owing to the continued influence of the precautionary measures put in force after the attempted measures put in force after the attempted assassination of the President on Friday. These consisted of free buying on recessions, with the sole purpose of stemming the tide of reaction and of the lending of money freely to keep down the rate. While vigorous support was offered the market upon any signs of reaction, it was also true that heavy offerings to realize met any advance in prices. The consequence was a constantly varying movement up and down, which ly varying movement up and down, which gave the market an exceedingly irregular appearance at all times. The closing was heavy and the extreme advances were much curtailed and in some cases entirely wiped

Guessing on Gage.

Opinions differed widely as to the effects which would flow from the proposals of Secretary Gage for releasing Government funds to the money market. It is the opin-ion that banking interests will be able to command a sufficient block of Government bonds for offer to the Secretary on terms bonds for offer to the Secretary on terms which he can accept to protect the money market from any real crisis. But it is to be remembered that the offer for redemption of Government bonds at a price fixed near to the present market vause, which has been standing since last April, has been responded to for some time past with only a dribble of small offerings, of insignificance on the money market.

Bonds Not in the Market.

The other part of the Secretary's offer, to

dribble of small offerings, of insignificance on the money market.

Bonds Net in the Market.

The other part of the Secretary's offer, to increase Government deposits up to the par value of the Government bonds left with the Treasury as security, tends to increase the disposition to hold the bonds and thus diminish the offerings. The increase of Government deposits with the banks can only be made out of future receipts on account of internal revenue, which run rather less than a million dollars a day all together. While a possible offset is thus provided against any stringency of money that would affect the commercial transactions of the country, there is some skepticism in the stock market whether the measure will insure borrowers on cail who hold stocks for speculation against the calling of loans and forcing of liquidation to pay the loans.

Fight Money Market.

There was a hardening tendency of sterling exchange to-day, also, with the rather easier rates for money here and the prospects of additional supplies, which carried the intimation that it must be a substantial need for money which will bring gold from abroad. Payments on account of \$788,855 were made at the Subtreasury to-day, while \$150,000 was deposited for transfer to New Orleans.

An early rumor of an extra dividend on St. Paul this week and a later one of a settlement of the steel stock were used with effect to support the market, the stocks most immediately affected leading the advance on each occasion. The Pacifics, Amalgmated Copper, and a number of the junior Vanderbilts and minor railroad stocks were also advanced sharply.

Railroad bonds were only moderately active and firm. Total sales, par value, \$1,60,000, United States 2s, and the new 4s advanced ½ per cent each on the last call.

ON UPWARD TURN.

DEMAND GOOD FOR BANK AND TRUST PAPER. Inquiry for Mining Stocks De-

veloped on the Local Exchange Yesterday.

Traction securities again led the trading on the local Stock Exchange yesterday. There was a particularly good demand for United Railway bonds, and, though no marked advance was recorded, there were or common stock showed some weakness at the morning session, but strengthened in the afternoon under the impetus of a good buying demand. Bank and trust company stocks were again to the fore. Missouri Trust again reached \$110 a share, and sol for Mississippi Valley Trust, but buyers and sellers could not get together. quiries for lead, zinc and gold mining stocks were plentiful at the morning ses stocks were plentiful at the morning session, and there was apparently a strong t:p
out on Laclede Gas, as bids at advanced
prices were made both for the stock and
the bonds of that company.
At the morning session a total of 1,922
shares of stock were sold. United Railways preferred brought \$1.50 and \$1.75,
and a big lot of Transit or common changed
hands at \$25.75. There was a sharp upward movement of St. Louis Trust, which

ward movement of St. Louis Trust, which sold first at \$45, then at \$33, and later at \$39 a share. Two 25-share lots of Com-monwealth Trust were sold, one at \$312.50. and the other at \$313. Sixty-five shares of Boatmen's Bank were transferred at \$214.50. Surprising activity developed at the afternoon session. The tendency was still bullish. Four hundred shares of stock and builish. Four hundred shares of stock and 3 \$1,000 United Railway is changed ownership. In the mining group Granite-Bi-Metallic showed increased strength, selling in a lot of 200 shares at \$2.52½. United Railway is sold at \$39.75. Bids or \$25.75 for Transit or common brought no response from sellers. Mississippl Vanley Trust sold in two 25-share lots, one at \$418, and the other at \$418.50. MORNING SESSION.

Local Money Market.

There was an easier feeling yesterday. The demand for money continued good and more loans were negotiated than on Monday. The range of discount rates was from 5c to 55c, with the bulk of negotiations at rates between 6 and 6 per cent.

SEEK RAILROAD FACILITIES.

Realty Dealers Say Manufacturers Make Many Inquiries.

An unusually heavy demand for railroad property for factories and storage buildings was reported by the realty dealers yesterday. This property is usually sought for by inquirers after locations in North and West St. Louis. It was said by a member of the Mercan

tile Trust Company yesterday that the de-mand for this kind of property exceeds any milar demand for years past. He expects

mand for this kind of property exceeds any similar demand for years past. He expects that many sales of such property will be closed this fall, and that the plans for many new factory buildings and storage warehouses will be made.

Demand for residence property, with dwellings costing about \$5,000, is exceptionally good. A number of sales of this kind will be closed within the next few days. The demand is for property in all residence sections of the city, the preference being for West End locations.

The Royal Investment Company began work on the foundation for a \$14,000 brick and stone, Colonial style, residence at No. 4615 Berlin avenue yesterday. The building will be modern in all respects.

This company has also just laid the foundations for three other brick and stone residences at Nos. 372, 374 and 376 Walton avenue, and for three more at Nos. 4602, 4604 and 4605 McPherson avenue. These houses will be built at a cost of about \$1,000 and \$10,000 each. Plans are now being drawn for two more houses on Berlin avenue, to cost \$18,000 each. Foundations are in for three houses at Nos. 576, 5080 and 5082 McPherson avenue, to cost \$2,000 each. Wall Street Gossip.

Reported by Francis, Bro. & Co., No. 214 North Fourth street:

In the early trading arbitrage houses sold about 19,000 shares, but afterwards turned buyers and took about 10,000 shares more than they sold. To-day was the first day for fortnightly settlement in London, and the early selling may have been of stocks hought here yesterday and not marketed in London.

BOY KILLED BY LIVE WIRE. Mike Zielinski Met Death in the

Rear of His Home. Mike Zielinski, 11 years old, was shocked to death early yesterday morning by a live electric-light wire in the alley in the rear of his home, No. 1223 North Tenth

rear of his home, No. 1223 North Tenth street.

About 6:15 o'clock the boy was sent to the bakery on the corner. He passed out the back way, and in a moment became entangled with the fallen wire. He struggled for an instant, then fell lifeless.

A number of older boys had been playing with the wires before, and had received only alight shocks. They were horrified to see the child unable to extricate himself and ran to tell the neighbors.

According to the story told by neighbors of the dead boy, the wire had been hanging loose since il o'clock Monday night. An employe of the Imperial company came along after the accident, and cut the wires.

wires.

Among the children reported as having received abooks is the 4-year-old son of Mrs. Czerwiniski, who lives where the dead boy resided. He was painfully burned in the paims of the hands.

Recover Property. The Barnett Manufacturing Company

filed suit yesterday against William H. Hussman, Minnle O. Hussman and Edward Butler, as trustee for property on Mitchell avenue, which is said to have been bought with money belonging to the company. Hussman is in the Missouri Penitentiary serving a term of three years for embersing \$4,000 from the company, while in their employ, as head bookkeeper and confidential man. It is alleged that he bought the property with a portion of the money he appropriated. He transferred it to his wife and she in turn had it placed in trust for propriated. He transierred it to his wife and she, in turn, had it placed in trust for her in Ed Butler's name.

Mrs. Hussman, who was charged with grand larceny for the alleged theft of \$2,000 worth of diamonds from May Quesnel, was acquitted at her preliminary hearing in the Court of Criminal Correction yesterday.

PRESENT SENATOR SERVES.

Arkansas Attorney General Interprets a Point at Law.

REPUBLIC SPECIAL eral George W. Murphy to-day solved a problem for the new Twenty-Second Sena-

problem for the new Twenty-Second Bena-torial District which will be of interest all over the State. In response to a query he wrote as follows:
"My opinion is that when a new senatori-al district is formed including a county in which a Senator of one of the districts has formerly existed resides, he is the Senator from the new district and will represent it until his term expires, but that where no Senator resides in any county of new dis-trict one residing therein will have to be elected. I can see no other conclusion."

WORLD'S FAIR DAY AT SEDALIA. Directors of State Exhibition Look for Attendance of 25,000.

REPUBLIC SPECIAL. Sedalla, Mo., Sept. 10.-The attendance at the State Fair to-day was light, owing to heavy showers of rain during the day. The

heavy showers of rain during the day. The race track was made unfit for speed purposes, and all races were declared off for the day. The live-stock show was further augmented to-day by the arrival of cattle from the Nebraska and Minnesota State fairs.

To-morrow will be World's Fair Day and the fair directors expect an attendance of more than 25,00 persons. An elaborate programme has been arranged for the day. The distinguished visitors from St. Louis will be welcomed by Governor N. J. Colman, president of the fair board, and addresses will be delivered by President Francis and C. P. Walbridge of the World's Fair Board and Governor A. M. Dockery.

DEDICATE CATHOLIC SCHOOL

Bishop Glennon, Assisted by Priests, Conducts Ceremony.

REPUBLIC SPECIAL.

Pilot Grove, Mo., Sept. 10.—St. Joseph's
Catholic School, a handsome three-story
brick building, was dedicated here to-day
by the Right Reverend J. J. Glennon, Bishop
of Kamsas City, Mo., assisted by the Reverend Fathers Newberg and Ignatius of
Sedaila; Father John Conrad of Conception,
Father Enopier of Tipton, Father Kussman
of Boonville, Futher Basilius of Nevada,
Father Bomiface of Clear Creek and Father
Plus Conrad of Pilot Grove. Solemn high
mass was celebrated by the Reverend Father
Pius Conrad of Pilot Grove. Solemn high
brates his aliver jublice.

The ceremonics were very impressive and
largely attended. The Catholic choir of
Sedails furnished the vocal music. REPUBLIC SPECIAL.
